

LE TENUTE

EFESO CALABRIA BIANCO IGT

Production area

Rosaneti estate in the countryside of Rocca di Neto/
Casabona

Cru

Efeso vineyard, characterized by its particular
"amphitheatre" shape and sandstone-rich soils

Grapes

Mantonico

Soil type

Clayey, calcareous with sandstone sediments

Training system and planting density

Spurred cordon, 5000 plants per hectare

Yield per hectare

60 quintals - 38 hectoliters

Harvest time

Last decade of September, first decade of October

Vinification

Soft pressing of the grapes and fermentation in
barriques

Ageing

In Allier barriques, with ageing on the lees for about 6
months and a 6 months' bottle ageing prior to release

Ageing potential

Ready from 6 months from the date of harvest, to be
aged in the cellar for up to 8 years

Between legend and myth
